Couchbase Achieves AWS Travel and Hospitality Competency Status

November 17, 2025 at 9:00 AM EST

SAN JOSE, Calif., Nov. 17, 2025 /PRNewswire/ -- [Couchbase, Inc.](#), the developer data platform for critical applications in our AI world, announced today that it has achieved [Amazon Web Services \(AWS\) Travel and Hospitality Competency](#) status. This differentiates Couchbase as an AWS Partner that has demonstrated success in accelerating digital transformation for travel and hospitality customers, across marketing and sales to core operations, customer experience, finance, IT and more.

Couchbase

This designation recognizes Couchbase's deep expertise and technical proficiency in helping travel and hospitality customers leverage AWS to accelerate industry modernization and innovation — from behind-the-scenes operational efficiencies to guest-facing customer experiences.

The AWS Travel and Hospitality Competency helps customers in the industry to more easily select skilled AWS Partners to help them drive modernization efforts with confidence. To receive the designation, AWS Partners undergo a rigorous technical validation process, including a customer reference audit.

"Couchbase is proud to achieve AWS Travel and Hospitality Competency status," said Gaurav Dhall, Global VP of Partnerships at Couchbase. "This designation is a testament to our team's dedication to providing travel and hospitality customers with comprehensive end-to-end solutions that enable them to build AI-powered real-time applications that are always secure, reliable and fast — even without internet connectivity. By leveraging the agility, breadth of services and pace of innovation that AWS provides, we'll continue to help our customers achieve their business transformation goals."

With years of experience in the travel and hospitality industry, Couchbase powers mission-critical applications with an always-on developer data platform built for scale and speed. It delivers industry-leading performance and high availability, while providing unmatched price-performance, flexible licensing and operational transparency to help customers reduce total cost of ownership.
