

Investor Presentation

Fourth Quarter Fiscal 2024

MARCH 5, 2024

Disclaimer

This presentation by Couchbase, Inc. ("Couchbase," the "Company," "we," "us" or similar terms) contain forward-looking statements. These statements may relate to, but are not limited to, financial and business trends and strategies, guidance and expectations of future performance, the calculation of metrics, capital expenditures, plans for growth and future operations, technological capabilities and new product development, market opportunity, strategic relationships and the impact of macroeconomic conditions on our business and results of operations, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "expect," "plan," anticipate," "believe," "estimate," "predict," "intend," "potential," "would," "continue," "ongoing" or the negative of these terms or other comparable terminology. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all.

Forward-looking statements are based on information available at the time those statements are made and on management's good faith beliefs and assumptions as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this presentation may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. These risks and uncertainties are described in greater detail under the section titled "Risk Factors" in the most recent annual report on Form 10-K or quarterly report on Form 10-Q that we have filed with the Securities and Exchange Commission (the "SEC") and include, among others, our ability to retain or increase sales to existing customers; our ability to attract new customers; our future financial performance, including trends in revenue, cost of revenue, operating expenses and key metrics, such as annual recurring revenue; our ability to achieve or maintain profitability; the demand for our database and services in general; our ability to protect and enhance our brand; and our ability to compete successfully. Except as required by law, Couchbase does not undertake any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

Disclaimer (cont'd)

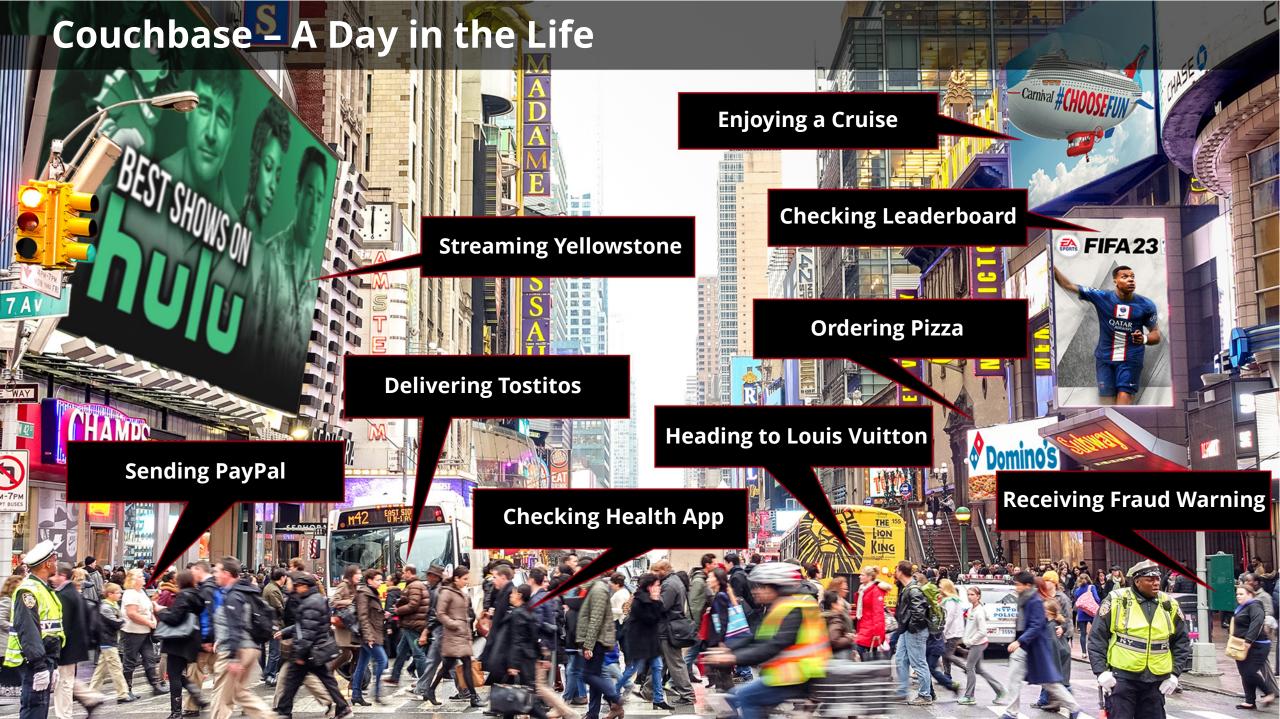

In addition to financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), this presentation and the accompanying oral presentation include certain non-GAAP financial measures, including non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating loss and non-GAAP operating margin. These non-GAAP measures are presented for supplemental informational purposes only and should not be considered a substitute for financial information presented in accordance with GAAP. These non-GAAP measures have limitations as analytical tools, and they should not be considered in isolation or as a substitute for analysis of other GAAP financial measures. A reconciliation of these measures to the most directly comparable GAAP measures is included at the end of this presentation.

This presentation and the accompanying oral presentation contain statistical data, estimates and forecasts that are based on independent industry publications or other publicly available information, as well as other information based on our internal sources. This information involves many assumptions and limitations, and you are cautioned not to give undue weight to such information. We have not independently verified the accuracy or completeness of the information contained in the industry publications and other publicly available information. Accordingly, we make no representations as to the accuracy or completeness of that information nor do we undertake to update such information after the date of this presentation.

Our mission is to simplify how organizations develop, deploy and run modern applications – wherever they are.

Q4-24 Financial Highlights

		8 8 8			
\$204M / 25% ARR / YoY ARR growth*	90%+ Subscription revenue	749 Total customers	26% % of total customers	90% Non-GAAP gross margin	291 Customers > \$100K ARR
26% YoY subscription revenue growth	115%+ Dollar-based NRR	30%+ F100 Significant enterprise contribution	11% % of total ARR	\$273k ARR per customer	45 Customers > \$1M ARR

Market Evolution

Adaptive Applications Driving the Need for Multipurpose Database Platforms

1970 to 1980

Relational Database

Legacy technology designed to address disk and RAM limitations using structured data with limited scale and performance.

2015

Public Cloud DBaaS

Emergence of public cloud enables fully managed services, delivering significant cost and agility advantages after "lifting and shifting" earlier architectures into clouds.

Today

Artificial Intelligence

Al and ML driving next-gen apps for automation, personalization and development. New requirements emerge: coding assistance, LLM integrations.

Rise of mobile, social, online resulting in massive unstructured data. Modern applications require availability, performance, scale, and flexibility.

2010

Rise of Multipurpose Platforms

DB Platforms which incorporate multiple workloads to simplify app architectures and improve cloud resource utilization as CSP costs rise.

2018

Problems Faced by Customers and Couchbase's Solution

Performance

Databases failing demands for millisecond response

Mobile/IoT

Customer doesn't have on-device experiences

Mobile and IoT application sync

Easy as SQL, with transactions, too

Flexibility

Teams lack agility and face increasing complexity

JSON schema flexibility for personalization

Multipurpose resource optimization

Shocking Cloud Costs

Excessive resource consumption caused by antiquated designs

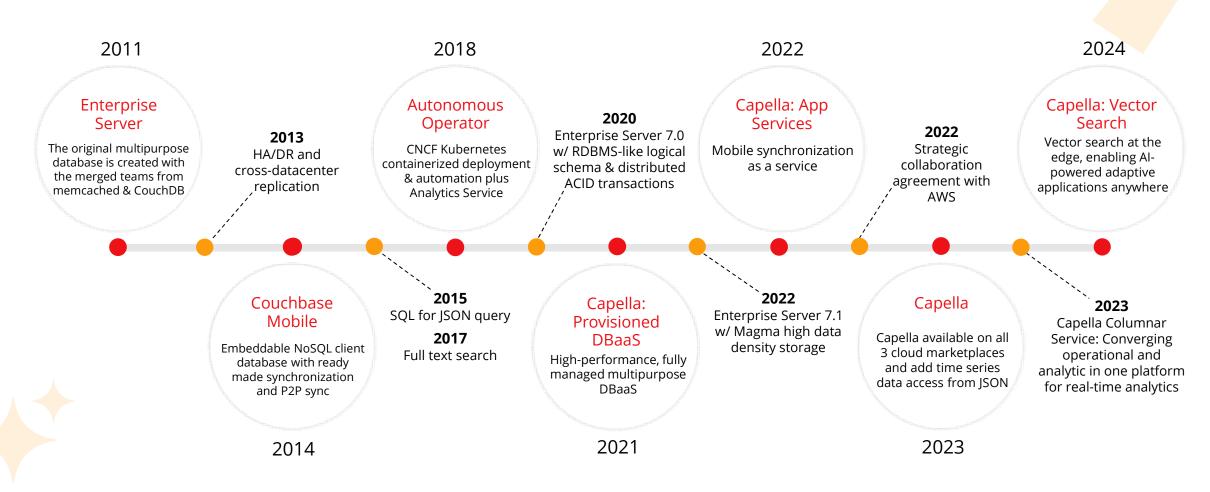

Incredible price/performance

Lower cloud and operating costs

Couchbase Platform History

Couchbase Product Portfolio

Self Managed

Couchbase Enterprise *Extends from cloud to edge*

- > High performance, highly scalable
- Couchbase Mobile and Sync Gateway
- Deploy anywhere: on-premises, Kubernetes, cloud
- Subscription model

Couchbase Capella
Couchbase-as-a-service

- > Fastest and easiest way to start with Couchbase
- > App Services
- > Available on the leading public clouds
- Consumption model

Couchbase Capella Database-as-a-Service

More Developer Oriented

Start Small, Grow Faster

Strong TCO

Faster Deployments

Aligned with CSPs

Strength of Couchbase Platform

Favorable Position in Competitive Landscape

Category Competitors Limitations Rigid, inflexible schemas prevent agility DRACLE Dedicated DBAs required **Legacy: Antiquated** Complex per-core licensing Insufficient performance at scale mongo DB₈ Lack of SQL++ compatibility **Other NoSQL: Limited** Complex architectures (i.e., caching) Vendor lock-in

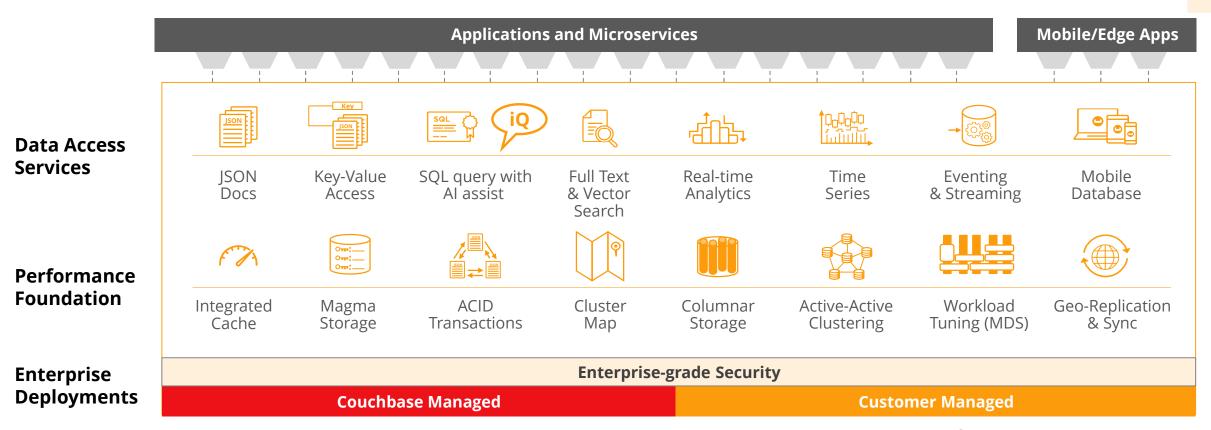

CSP: Proprietary

- No offline, edge capabilities
- Expensive, complex architectures

Couchbase's Differentiated Architecture

Public Cloud

Cloud Edge

On Prem

IoT edge, devices

Our Robust Partner Ecosystem Increases Scale and Reach

Cloud Service Providers

Independent Software Vendors

Global System Integrators

Technology Ecosystem

Why We Win: Couchbase is a Better Value

Incredible price/performance, availability, versatility, and ease of use

Performance, scale, and tunable architecture for millisecond response

Multipurpose access to JSON analytics for operational, analytical and Al-applications

Efficient for Developers; easy as SQL, robust SDKs, and Al automation

App Services for Mobile & IoT with peer-to-peer sync for great experiences anywhere, all the time

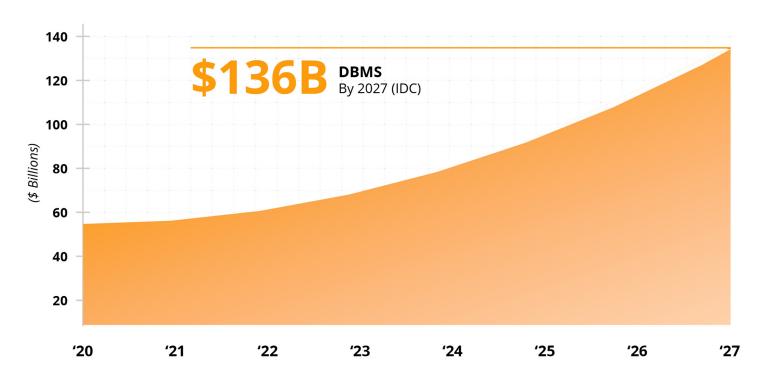

Demonstrably Lower TCO; 55% of surveyed customers cut their infrastructure spend in half *

Our Market is Massive and Transitioning

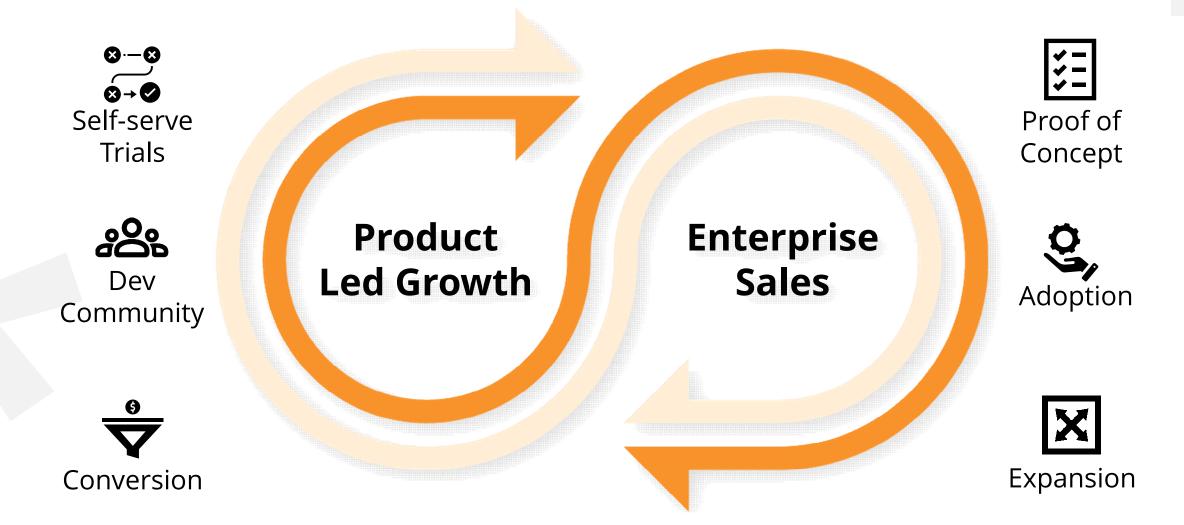

Sources:

IDC, Worldwide Database Management Systems Software Forecast, 2023–2027, IDC #US50719723, June 2023

- Core market drivers include high performance and high scalability modern applications
- Aligned to some of the fastest growing DBMS market subsegments of cloud and non-schematic
- Al accelerates further opportunity for high-performance applications

Couchbase Values

Be a good human, always.

Act with uncompromising integrity, period.

Service your family, as defined by you.

Attack hard problems, *driven by consumer outcomes.*

Play to win, *together*.

Make tomorrow better than today, *start now.*

Our Best Days Are Ahead

Strong Foundation

- Well established model
- Best in class gross margins
- Strong net retention rate

Capella Inflection

- Growth accelerator
- Faster time to monetization
- Delivers developer agility

Future Leverage

- Driving efficiency in the model
- FCF profitability
- Aligned to Al requirements

Financials

We Focus on ARR and RPO

Annual Recurring Revenue (ARR)

Why it matters:

Best represents our recurring subscription business

What is and isn't included:

- Non-cloud ARR based on annualization of recurring revenue and Cloud ARR based on annualization of the prior 90 days of actual consumption
- Committed revenue with contract start dates within 12 months from a reporting period
- Service, training, non-recurring, and on-demand engagements

Remaining Performance Obligations (RPO)

Why it matters:

Represents total business recorded, but not yet revenue recognized

What is and isn't included:

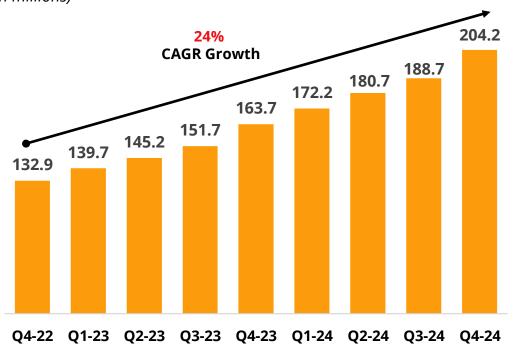

- Subscription and services obligations which have yet to be revenue recognized
- On-demand arrangements billed in arrears

Annual Recurring Revenue

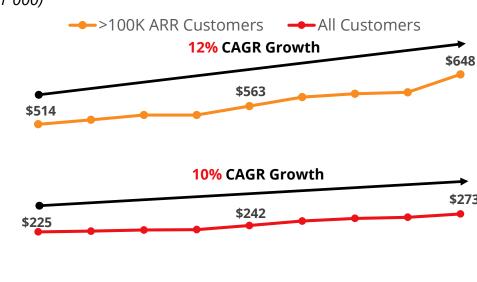

ARR

(\$ in millions)

ARR Per Customer

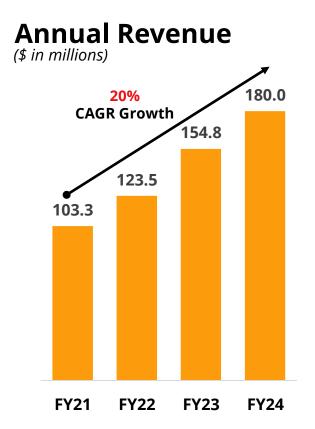

(\$ in '000)
