operational workloads. By converging operational and real-time analytic applications into one database platform,
Couchbase removes friction to deliver a premium customer experience.

#### **Financial Outlook**

For the fourth quarter and full year of fiscal 2024, Couchbase expects:

	Q4 FY2024 Outlook	FY2024 Outlook
Total Revenue	\$46.2-46.8 million	\$176.2-176.8 million
Total ARR	\$198.0-202.0 million	\$198.0-202.0 million
Non-GAAP Operating Loss	\$8.2-7.4 million	\$35.4-34.6 million

The guidance provided above is based on several assumptions that are subject to change and many of which are outside our control. If actual results vary from these assumptions, our expectations may change. There can be no assurance that we will achieve these results.

Couchbase is not able, at this time, to provide GAAP targets for operating loss for the fourth quarter or full year of fiscal 2024 because of the difficulty of estimating certain items excluded from non-GAAP operating loss that cannot be reasonably predicted, such as charges related to stock-based compensation expense. The effect of these excluded items may be significant.

#### **Use of Non-GAAP Financial Measures**

In addition to our financial information presented in accordance with GAAP, we believe certain non-GAAP financial measures are useful to investors in evaluating our operating performance. We use certain non-GAAP financial measures, collectively, to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, may be helpful to investors because they provide consistency and comparability with past financial performance and meaningful supplemental information regarding our performance by excluding certain items that may not be indicative of our business, results of operations or outlook. Non-GAAP financial measures are presented for supplemental informational purposes only, have limitations as analytical tools and should not be considered in isolation or as a substitute for financial information presented in accordance with GAAP, and may be different from similarly-titled non-GAAP financial measures used by other companies. In addition, other companies, including companies in our industry, may calculate similarly-titled non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures (provided in the financial statement tables included in this press release), and not to rely on any single financial measure to evaluate our business.

Non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating loss, non-GAAP operating margin, non-GAAP net loss and non-GAAP net loss per share: We define these non-GAAP financial measures as their respective GAAP measures, excluding expenses related to stock-based compensation expense, employer payroll taxes on employee stock transactions and restructuring charges. We use these non-GAAP financial measures in conjunction with GAAP measures to assess our performance, including in the preparation of our annual operating budget and quarterly forecasts, to evaluate the effectiveness of our business strategies and to communicate with our board of directors concerning our financial performance.

*Free cash flow:* We define free cash flow as cash used in operating activities less additions to property and equipment, which includes capitalized internal-use software costs. We believe free cash flow is a useful indicator of liquidity that provides our management, board of directors and investors with information about our future ability to generate or use cash to enhance the strength of our balance sheet and further invest in our business and pursue potential strategic initiatives.

Please see the reconciliation tables at the end of this press release for the reconciliation of GAAP and non-GAAP results.

#### **Key Business Metrics**

We review a number of operating and financial metrics, including ARR, to evaluate our business, measure our performance, identify trends affecting our business, formulate business plans and make strategic decisions.

We define ARR as of a given date as the annualized recurring revenue that we would contractually receive from our customers in the month ending 12 months following such date. Based on historical experience with customers, we assume all contracts will be automatically renewed at the same levels unless we receive notification of non-renewal and are no longer in negotiations prior to the measurement date. ARR also includes revenue from consumption-based cloud credits of Couchbase Capella products. ARR for Couchbase Capella products in a customer's initial year is calculated as described above; after a customer's initial year it is calculated by annualizing the prior 90 days of actual consumption, assuming no increases or reductions in usage. ARR excludes revenue derived from the use of cloud products only based on on-demand arrangements and services revenue. ARR should be viewed independently of revenue, and does not represent our revenue under GAAP on an annualized basis, as it is an operating metric that can be impacted by contract start and end dates and renewal dates. ARR is not intended to be a replacement for forecasts of revenue. Although we seek to increase ARR as part of our strategy of targeting large enterprise customers, this metric may fluctuate from period to period based on our ability to acquire new customers and expand within our existing customers. We believe that our ARR is an important indicator of the growth and performance of our business.

We also attempt to represent the changes in the underlying business operations by eliminating fluctuations caused by changes in foreign currency exchange rates within the current period. We calculate constant currency growth rates by applying the applicable prior period exchange rates to current period results.

#### **Forward-Looking Statements**

This press release contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on management's beliefs and assumptions and on information currently available to management. Forwardlooking statements include, but are not limited to, quotations of management, the section titled "Financial Outlook" above and statements about Couchbase's market position, strategies and potential market opportunities. Forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements include all statements that are not historical facts and, in some cases, can be identified by terms such as "anticipate," "expect," "intend," "plan," "believe," "continue," "could," "potential," "remain," "may," "might," "will," "would" or similar expressions and the negatives of those terms. However, not all forward-looking statements contain these identifying words. Forward-looking statements involve known and unknown risks, uncertainties and other factors, including factors beyond our control, which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These risks include, but are not limited to: our history of net losses and ability to achieve or maintain profitability in the future; our ability to continue to grow on pace with historical rates; our ability to manage our growth effectively; intense competition and our ability to compete effectively; cost-effectively acquiring new customers or obtaining renewals, upgrades or expansions from our existing customers; the market for our products and services being relatively new and evolving, and our future success depending on the growth and expansion of this market; our ability to innovate in response to changing customer needs, new technologies or other market requirements, including new capabilities, programs and partnerships and their impact on our customers and our business; our limited operating history, which makes it difficult to predict our future results of operations; the significant fluctuation of our future results of operations and ability to meet the expectations of analysts or investors; our significant reliance on revenue from subscriptions, which may decline and, the recognition of a significant portion of revenue from subscriptions over the term of the relevant subscription period, which means downturns or upturns in sales are not immediately reflected in full in our results of operations; and the impact of geopolitical and macroeconomic factors. Further information on risks that could cause actual results to differ materially from forecasted results are included in our filings with the Securities and Exchange Commission that we may file from time to time, including those more fully described in our Annual Report on Form 10-K for the fiscal year ended January 31, 2023. Additional information will be made available in our Quarterly Report on Form 10-O for the quarter ended October 31, 2023 that will be filed with the Securities and Exchange Commission, which should be read in conjunction with this press release and the financial results included herein. Any forward-looking statements contained in this press release are based on assumptions that we believe to be reasonable as of this date. Except as required by law, we assume no obligation to update these forward-looking statements, or to update the reasons if actual results differ materially from those anticipated in the forward-looking statements.
